ENVIRONMENTAL CAREERS NIGHT

Thursday, September 11  5 – 7 PM
Holmes Hall Engineering Bldg  4th Floor Lounge
Florida Gulf Coast University, Fort Myers, Florida

Meet the Professionals – An informal meet-and-greet with Southwest Florida companies and associations

- Engineering and ecology consulting firms
- City and county environmental agencies
- Non-profit and non-government environmental organizations
- Professional societies that work to keep their members involved

If you have interest in the environmental field
- For a career direction;
- For a part-time or entry level job possibility;
- For an internship or service learning opportunity;
- To be involved, and make a difference right now

Come meet the professionals and hear about:
- What part of the field may be right for you?
- What classes and research should you do to be well qualified?
- How can you make the contacts that will lead you to a career?
- How can you build an exceptional resume?
- How can you get the experience and skills to enter the field?

Light refreshments and low-pressure conversation.

Door prizes, sign-ups for opportunities, and just maybe – a chance to change the world a little.

Sponsored by: American Society of Civil Engineers, Southwest Florida branch; American Water Resources Association, Florida section; Audubon of Southwest Florida; Caloosahatchee River Watch; Florida Engineering Society; Southwest Florida Association of Environmental Professionals; Southwest Florida Watershed Council
